

# ★ Become a zero waste warrior!

We're on a mission to help children change the world. Follow these hints & tips for making your packed lunch waste free:

Pack reusable utensils instead of using disposable plastic.

Use a lunchbox or backpack instead of relying on paper or plastic bags.

Pack a reusable drinks container instead of using disposable plastic bottles.

Ask your child to bring home any lunch scraps so you can see what they enjoy eating.

Pop lunch items into reusable containers, avoiding plastic wraps, plastic bags, and aluminium foil.

Eat naturally wrapped foods like bananas, apples and oranges.

We hope your child enjoys their visit to Winchester Science Centre!
