

Design your own caterpillar!

**Butterfly
Conservation**

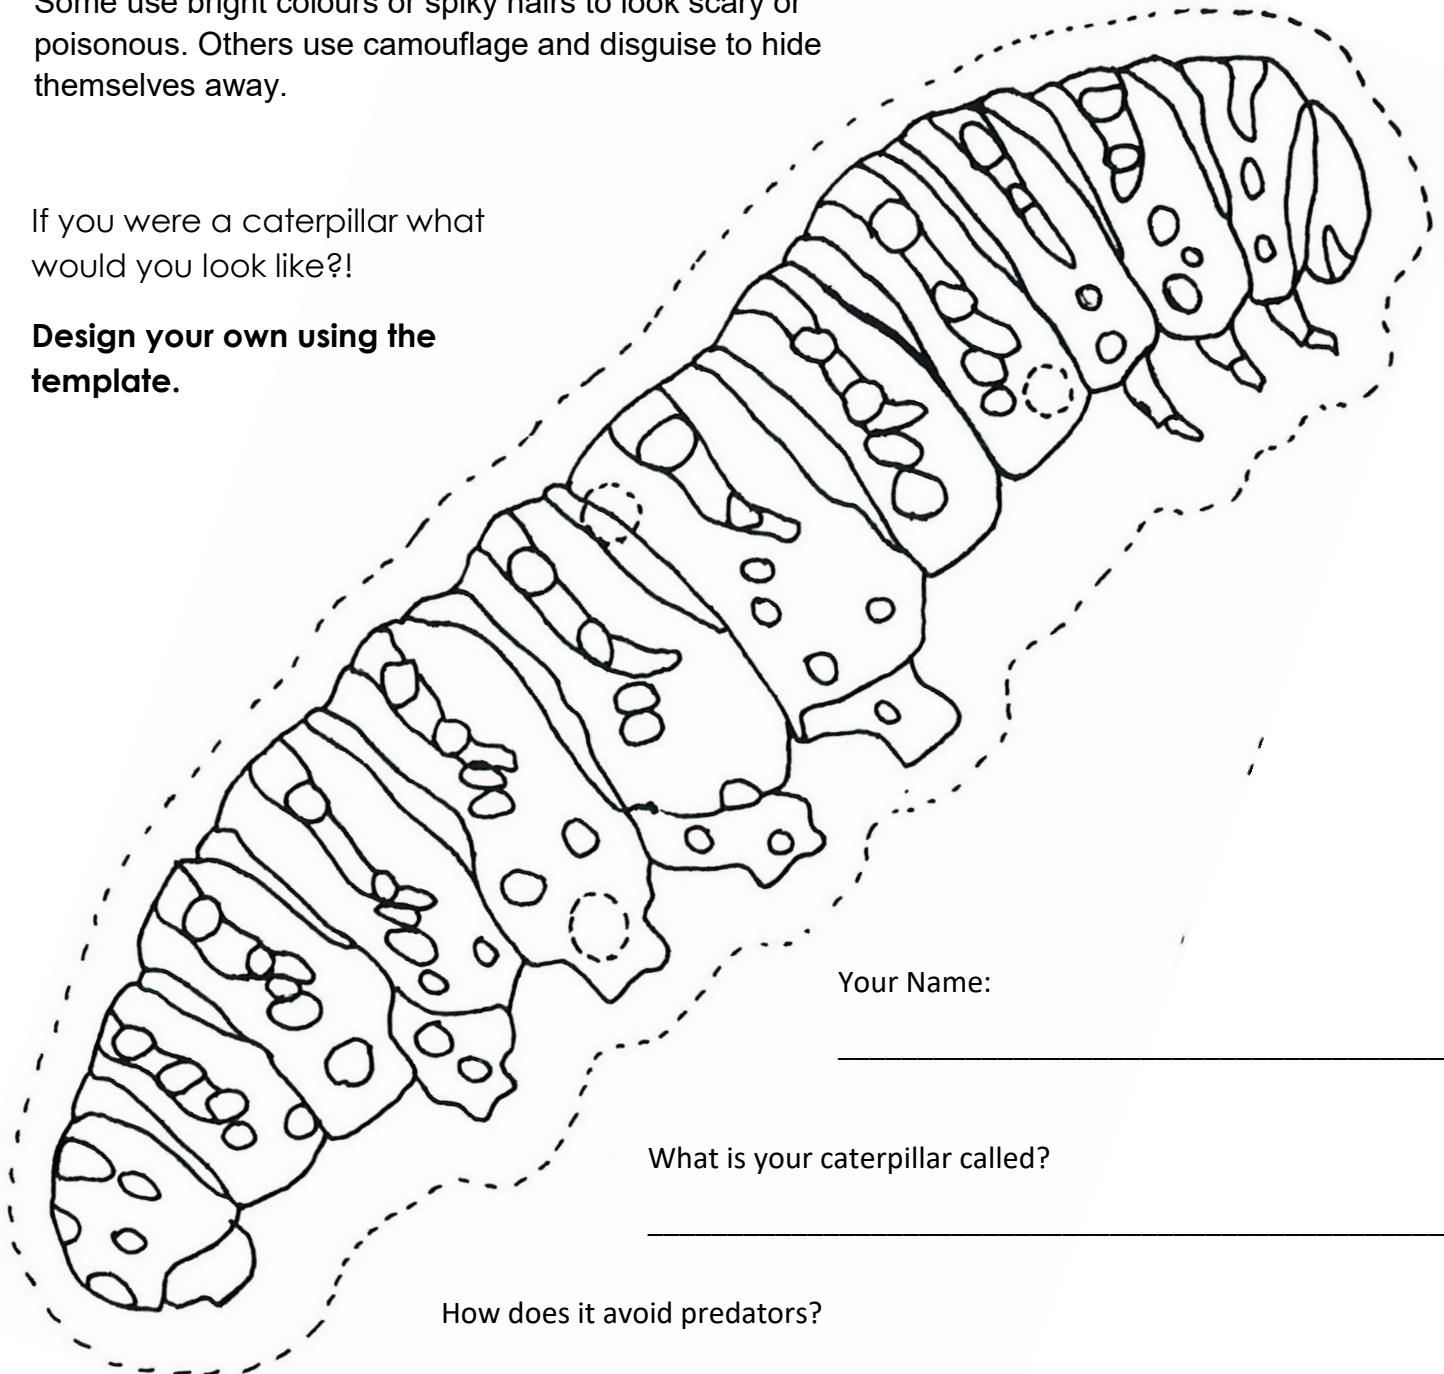

Saving butterflies, moths and our environment

Caterpillars use all sorts of clever tricks to avoid being detected and eaten by predators.

Some use bright colours or spiky hairs to look scary or poisonous. Others use camouflage and disguise to hide themselves away.

If you were a caterpillar what would you look like?!

Design your own using the template.

Your Name:

What is your caterpillar called?

How does it avoid predators?
